Live wallpaper for android phone free

Live wallpapers are just some of the best things that most Android tablets can support. Since a tablet has a wider screen compared to other devices, placing an amazing wallpaper on the screen will surely make you love your tablet even more. And, when we say amazing wallpapers, we almost always mean live wallpapers. Related: The best live wallpapers for AndroidA lot of live wallpapers have been developed for Android devices. Most of them can be used by phones and tablets. Various live wallpapers are available to various people and with the extensive collection that has Google Play Store, choosing only one will definitely be a bit of a tax. To be a little help for you, we've listed 10 of the best paid live wallpapers for Android tablets. Read on and maybe you'll find one that piques your interest and spruces up your Android tablet. Christmas HD Although it's not Christmas yet, it's never too early to take your tablet for the holidays. With Christmas HD, you can feel it's Christmas, even if it's still mid-year. This live wallpaper, developed by Dualshoot Games, is highly customizable; from the lights, the image of the portrait, the gifts, the top of the tree, and even the stockings. With this live wallpaper, you can count the days until Christmas with your calendar. You can even leave notes and cookies for Santa Claus, too. And, to overcome all its features, it comes in real 3D works of art, getting as close as possible to feeling and seeing Christmas in reality. You can also set up to have snow falling out of the window on this wallpaper, which gives you the feeling that the vacation is actually closing. With this live wallpaper, you not only get to benefit yourself, but you can also help those who need help the most. When you buy this live wallpaper, a portion of the profits will be donated to charities. This is a great way to really celebrate Christmas, not only with your family, but also with other people who deserve to be happy on such an occasion. Christmas HD for Android on AppBrainKoi Live WallpaperThe koi variety or fish carp are known to live for a long time and are very relaxing to watch. Due to their beautiful colors and grace, they are popular all over the world. If you don't have a koi fish pond or an outdoor water garden in your home, but still want to keep and see these beautiful fish, Koi Live Wallpaper is the best choice you have. With this wallpaper on your tablet, it's like you really have a koi fish pond inside your Android tablet. This wallpaper is rendered in 3D, allows interactivity, and supports multi-touch. You want to have a lot of koi fish on your tablet screen, the wallpaper settings can allow you to control the population of your fish. Touching once will scare a fish, which by the way, is entertaining especially if there are a lot of fish on the screen, while the double tap will feed your fish. You'll love how beautiful this live wallpaper will look on your tablet. You can stare at the koi fish explore their fish pond or you can also have fun with them. Koi Live Wallpaper for Android on AppBrainSeason Zen HDWinter, Spring, Summer and Autumn - these seasons come and go very fast, especially if you are having so much fun or you are very busy with a lot of things in your life. Some of us, however, would love to relive these seasons again, perhaps because of the innate beauty of these seasons or simply because we want to remember certain memories linked to them. Zen Hd Season will allow you to revisit all four seasons whenever you want, with the use of your Android tablet. This live wallpaper gives you the freedom to customize almost every part of a scene. You can customize benches, flowers, butterflies, snowmen and more. An automatic camera tray is also included that allows you to scroll through the scene, allowing you to view each and every item present in the selected season. Let your tablet bring you back to the season you want to revisit and see how this live wallpaper is worth every penny. The seasons can come and go, but with this live wallpaper, you won't be bothered by how fast they fly by. Zen Season HD for Android in AppBrainLight Grid Pro Live WallpaperDeveloped by Joko Interactive, Light Grid Pro Live Wallpaper, is a live wallpaper that takes you to a whole new dimension due to its stunning shapes and lights. This is a live wallpaper you should have on your tablet, allowing you to play with shapes and colors as much as you want. This live wallpaper features squares, hexagons, circles, and more shapes you can choose to have on the screen. Animated ripple and wave effects and interactive touch options are also available. With combinations of settings you like, you can save the themes you've made and you can also share your settings with your friends via email, Twitter and other social media. Light Grid Pro Live Wallpaper also generates new wallpapers for your tablet if you are not really able to customize your own. If you want to customize your wallpaper or stick with the generated ones, this live wallpaper is one that can be called candy-eyes. Show it to your friends! Light Grid Pro Live Wallpaper for Android on AppBrainMy Beach HDSummer is definitely one of the stations we look forward to. This season, when the air gets heavier and the temperature heats up, it's one we shouldn't dare lose. But what happens when we really lose him? Do we wait months before we can go to the beach and enjoy? The answer is yes, we have to wait. The beach is best enjoyed during the summer, but while we wait, having our own beach on our tablets will probably quench our thirst for the summer. My Beach HD is a live wallpaper that will help you get out of the mind of the dying wait for summer to come. Packed with tons of customizable features, this wallpaper is a must-have for tablet owners. Beach signs, airplane flags, and fireworks are just some of the features that can be customized in this wallpaper. Even the waves, the waves, aircraft, and umbrellas can be customized according to your preference. Predefined themes are also available to help you choose your own private beach: Fireworks at Night, Private Beach, Family Departure, Independence Day and Shark Watching. Enjoy the advantages of having a private beach, even if you don't really own one. Beach HD for Android on AppBrainSnowfall Wallpapers Live WallpaperLive certainly bring life and color to our Android devices, especially tablets. Although simple wallpapers can still do the trick, some users consider live wallpapers to be much better because a lot of aspects can be customized. When it comes to live wallpapers, top developer Kittehface Software is just one of the developers who never stops delivering. Snowfall Live Wallpaper turns your tablet into a winter wonderland. One of the things that can be customized in this live wallpaper is snow density. You can choose not to have snow, have it light or medium, or you may have a blizzard running. Ambient light can also be customized by changing the tone that light should be with a color picker. Christmas lights can be placed on trees that appear on the wallpaper and, of course, can be set to have a color for the lights or have it multicolored. Have snow falling even if it's still months away before winter. Your tablet will take you to a place where almost everything is white and beautiful. Snowfall Live Wallpaper for Android on AppBrainThunderstorm Live WallpaperThunderstorm Live Wallpaper takes you closer to seeing lightning if you're at home, at school, or at work. Although this live wallpaper lacks the booming sound of thunder, it compensates through the number of customizable features. Seeing lightning up close has never been fun to experience, but with this live wallpaper, having lightning strike so close to your face is really something, especially when you can change the color of the rays to your liking. You can make more clouds appear on your screen, but that won't save you from seeing the rays. You can also set how often a lightning strikes. Ambient color is also one thing you can customize along with wind and camera speed. Perhaps with the right combination of settings, you will have the opportunity to experience a storm almost real life, but the best thing is that you won't get wet due to the rain or worry about being really struck by lightning. With your Android tablet, you can sit back and watch the storm without worrying about any victims or property damage. Storm Live Wallpaper for Android on AppBrainGalactic Core DonationEver Wondered What Do Galaxies Look Like? The are, hands down, one of the most beautiful things one can put in his sight. They are so beautiful that you want to keep looking at them but you can't because you won't like the idea of always bringing clumsy astronomy books or searching TV channels for a show about galaxies, you need to look more because a live wallpaper may be the answer to your need. Galactic Core Donation is a live wallpaper that features galaxies with a number of options that you can customize to suit your preferences. This live wallpaper has many layers of depth that make galaxies look amazing on your tablet's home screen. You can customize the rotation speed and direction of galaxies, as well as the colors at the base, second, and third passes of galaxy layers. You also have the freedom to choose the theme or visual style that the galaxy should use: spiral, nebula or dark. With these features, you'll see galaxies like never before. How you've seen them in your science class or on TV won't even come close to this live wallpaper. Donation of galactic cores for Android in AppBrainBlue Skies Live WallpaperPeople say that a light blue sky indicates good weather, and the good weather usually keeps us in good condition. Therefore, to keep your spirit high despite some problems, Blue Skies Live Wallpaper will take you to the clouds to give you the feeling of being literally high. This live wallpaper will make it look like you're shooting through the clouds with the use of your Android tablet. Like the Thunderstorm Live Wallpaper, you can also set the density of the cloud or cloud count in this wallpaper and set how many rough and high-altitude clouds you want on the screen. A fun addition to this live wallpaper are floating balloons. You can configure them to have them enabled and you will be notified of your unread messages. Apart from the above features, you can also customize wind speed and camera speed, and background image. You can have the background in gradient or light blue, according to how you want your sky to look. Keep this live wallpaper on your tablet and keep your good mood throughout the day. Blue Skies Live Wallpaper for Android on AppBrainPet Aquarium Live WallpaperOne of those people who want to keep pets, but their apartments or condominium units will not allow them?
